

**SAI QUAL E' IL COLMO PER
UN CANGURO FERITO?**

Esegui le operazioni e poi riordina i risultati in ordine crescente e scopri il colmo.

$$345 + 278 + 9 = \text{PRON}$$

$$986 : 8 = \text{UN}$$

$$296 : 7 = \text{FA}$$

$$849 - 276 = \text{AL}$$

$$46 \times 19 = \text{SOC}$$

$$272 \times 3 = \text{TO}$$

$$56 \times 17 = \text{SO}$$

$$689 - 199 = \text{TO}$$

$$876 : 3 = \text{SAL}$$

$$378 + 566 = \text{COR}$$

$$564 : 6 = \text{RE}$$

Riordina i risultati in ordine crescente e scopri il colmo.

$$345 + 278 + 9 = 632 \text{ PRON}$$

$$986 : 8 = 123 \text{ UN}$$

$$296 : 7 = 42 \text{ FA}$$

$$849 - 276 = 573 \text{ AL}$$

$$46 \times 19 = 874 \text{ SOC}$$

$$272 \times 3 = 816 \text{ TO}$$

$$56 \times 17 = 952 \text{ SO}$$

$$689 - 199 = 490 \text{ TO}$$

$$876 : 3 = 292 \text{ SAL}$$

$$378 + 566 = 944 \text{ COR}$$

$$564 : 6 = 94 \text{ RE}$$
